Community Development and Health

Community Development And Improved Health Within Communities – this ½ day training will introduce participants to how they can use community development to improve health within their communities. Suitable for local people involved in community based projects or for those who are new to working with communities on health and wellbeing related projects.

Practice Based Community Development For Improved Health - this full day training gives participants to explore how they can use community development to improve health and wellbeing for the groups they work with. Suitable for paid workers or those who have experience of leading community based projects around health and wellbeing.
